

Green Steel WORLD

Conference

23 & 24 September 2026

Van der Valk Airporthotel Düsseldorf

CALL FOR PAPERS

Steel Meets Sustainability

Join industry leaders, innovators, and changemakers at the Green Steel World Conference 2026, where the global steel community comes together to shape a sustainable future. As the demand for decarbonized steel intensifies, this conference provides a unique platform to explore groundbreaking technologies, pioneering projects, and real-world solutions driving the transition to green steel.

Over two dynamic days, participants will gain insights from world-class experts, engage in thought-provoking discussions, and connect with decision-makers across the steel value chain – from producers and suppliers to end-users and policymakers. With a strong focus on innovation, collaboration, and actionable strategies, the event is designed to accelerate progress toward net-zero goals while strengthening the competitiveness of the steel industry.

Be part of the movement transforming steel.

Green Steel World Conference 2026 – where sustainability meets strength.

23 & 24 September 2026 | Van der Valk Airporthotel Düsseldorf

Organized by KCI World

CALL FOR PAPERS!

We invite researchers, engineers, industry experts, and innovators to submit papers showcasing advances in sustainable steelmaking, decarbonization technologies, and circular solutions. Share your insights with a global audience driving the transition to green steel. Contribute to shaping the future of the industry – submit your paper today and join the conversation.

We welcome presentation proposals in the form of a 250-300-word abstract submitted by **15 February 2026**. Submissions will be reviewed by the Green Steel World team.

Suggested topics:

- Breakthrough Technologies for Green Steelmaking (hydrogen-based, electrification, direct reduction, etc.)
- Decarbonization Strategies Across the Steel Value Chain
- Circular Economy and Steel Recycling Innovations
- Carbon Capture, Utilization, and Storage (CCUS) in Steel Production
- Sustainable Supply Chains and Responsible Sourcing of Raw Materials
- Policy, Regulation, and Market Mechanisms Driving Green Steel
- Digitalization and Smart Manufacturing for Energy Efficiency
- End-User Perspectives and Demand for Low-Carbon Steel
- Innovative Financing and Investment Models for Green Steel Projects
- Collaboration, Partnerships, and Global Strategies for Net-Zero Steel

Submission details

Submit your **250-300-word** abstract in Word format. Include a clear outline of your presentation, with key topics and keywords.

UPLOAD YOUR ABSTRACT HERE

Deadline:
15 February 2026

For further details, please contact the conference coordinator:

Ms. Kiyo Ichikawa • +31 65157 6326 • k.ichikawa@kci-world.com

IMPORTANT DATES: Abstract submission deadline: 15 February 2026

Notification of acceptance: March 2026 • PowerPoint submission: 15 August 2026

Four events in one location

The Green Steel World Conference 2026 will be held in tandem with the Hydrogen Tech World, Instrumetrics World, and EVOLUTIONCX – The AI Conference. One ticket grants access to all four events!
